August 7, 2026

For the month of July 2026, the members of the Beaver Falls Fire Department received a total of two hundred forty-five **(245)** hours of training (See attached). The highlights for the month are included below:

Driver/Operator Candidates: All but 2 firefighters that took their driver/operator pumper certification exam in June received their results and are now Nationally certified Pumper driver/operators. The remaining 2 will retest and there are no doubts that they will succeed.

July 23: Twelve (12) firefighters attended an in-house SCBA training. This training was refresher for seasoned members and introductory training for several of our Probationary Firefighters.

Respectfully submitted,

Chris Crawford
