What is the Borough's Current State of Public Safety Readiness?

questionable

Additional Comments

EOP submitted to Council a year ago, with no approval. Recommendation given for ALL council members to complete FEMA introductory independent study course IS100 & IS700. Only ONE council member has completed and returned his training forms to EMC.

Another council member had completed coursework many years prior.

A newly copied EOP was suggested and portions of the submitted plan were referenced.

This new plan is quite extensive without local reference and appears to be copied from some other large entity.

EMC held PEMA prior Basic and Advanced certifications and has completed the new PEMA Professional level certification. He continues to follow up with County EMA training and maintain contacts there and throughout Region13 County EMA staff.

Council has continued to move against the long-standing EMA staff of the borough and its involvement with the JEMS organization that is presently working with the Solicitor.
